AN IMPORTANT item for those who in this region coatemplate cotton or woolen factories is that be ore long the cotton mills in New England will be built with one story. The advantages claimed are increased safety, convenience, and higher speed for machinery. A gingham company has tried the experiment, and finds that a building of that deecription, covering about an acre, cost twenty-three thousand dollars, had saved in gas alone a sum equal to the interest on the cost of the buildin , and obtained an increased speed of twelva per cent.

DR. CHAILLE, chairman of the Havana commission, say that the three suburb towns of that city, named Jesus del Monte, Mariana and Guanabacoa, are those most exempt from yellow-fever, being from ninety to one hundred and seventy-five feet above the sen level, and having a perfect drainage. He says of the ward called Barno de Colon, that the most fertile imagination could not exaggerate the unsanitary condition of that locality and the wards of the fourth district beside the sea. He expresses his astonishment how people can I ve at all in such overgrowded and fil by places.

THE proceedings of the American health association, which met yesterday at Nashville, will challenge the attention of the readers of the APPEAL this morning. The ravages of yellow-fever in Memphis, and the sanitary condition of our reported by the experts still making a house to-house inspection, will be thoroughly and exhaustively discussed, as indicated by the address of the president, Dr. Cabell, of Virginia. San Francisco, November 18.—An ex-plosion occurred in tunnel No. 3, on the nar-row-gauge railroad from San Jose to Santa row-gauge railroad from San Jose to Santa Cruz, early this morning. From the meager accounts thus far received, it appears the blast was let off about twenty-seven hundred feet from the mouth of the tunnel, which caused the explosion of the gas generated by filtering of coal oil through the roof and sides of the tunnel. Twenty-one Chinamen and two white men were at work in the tunnel at the time. At once about twenty more Chinamen rushed into the tunnel with torches to aid their comrades. GRAMS and GRAPHS JACOB'S PATENT LITHOGRAM.

J. M. JACOBS, having now secured Letters Patent
Loboth in the J. S. and Canada for the elastic process of copying, cautions all persons from purchasing any of the "grams" or "graphs" or counterfeit
imitations by which the public are being victimized.

After a series of experiments conducted at great cost
and involving much labor, Jacob's Lithogram has
been so completely perfected that it is not only more
durable, but so altered in construction and thickness
(double the original) and case of erasure, that the
Patentee of this wonderful and labor-saving apparatus is enabled to offer a guarantee with each Lithogram sold; and in orde that all may test the meits of the Lithogram, has established the following
reduced prices: Postal Card, S1 50; Note, \$3; Letter, \$5; Feolscap, \$7; Feolo, \$1. Agents wanted
throughout the count y. Address J. M. JACOBS, 3
